ACRIN 4703: Detection of Early lung Cancer Among Military Personnel Study 1 (DECAMP-1): Diagnosis and Surveillance of Indeterminate Pulmonary Nodules

Patient Completed Questionnaire Folder Completion Instructions

The questionnaire should be distributed to the patient at the Eligibility/Registration Visit and should be collected no later than the completion of the Biospecimen Collection.

Per Protocol Section 8.1:
8.1 Eligibility/Registration Visit (within 3 months of initial diagnosis)
   8.1.4 Distribute Patient Lung History questionnaire for completion by the participant.

Per Protocol Section 8.2:
8.2 Biospecimen Collection/Processing (within 3 months of registration)
   8.2.11 Collect Patient Lung History questionnaire from participant, if not completed at Registration.

These instructions include guidance on the entry of the Patient Lung History Questionnaire into the Patient Completed Questionnaire folder. Some queries are included in this document, however it is not a comprehensive reference for queries - all queries reasons should be clear in the query text. If there is any issue or question regarding a query, please contact the lead data manager on this trial for clarification.

**General Patient Completed Questionnaire Folder Instructions**

The Patient Lung History Questionnaire should be given to the patient for self-completion. Sire personnel administering the questionnaire in person may assist with reading the questions, but should take care not to attempt to interpret any questions for the participant.

Each form in Rave corresponds to a separate section of the paper Patient Lung History questionnaire. Each section in the paper form has a title that corresponds to the form in Rave. All question numbers in Rave match question numbers on the paper form. See example 1 below.

Questions on the eCRF version on the questionnaire have the option of ‘pt left field blank’; therefore a response must be provided for every question. See example 2 below.

A scanned, deidentified copy of the completed paper version of the Patient Lung History questionnaire must be uploaded into Rave.
