Re: ACRIN (6660) IS FORM USE – Effective October 13, 2005

- The 6660 protocol team has decided to discontinue the use of the IS (Proof of Truth in Diagnosis, New Surgery, Diagnostic Procedure or Imaging) form.

- Any pending data queries involving the IS form must be resolved

- Case calendars will be adjusted over the next few weeks, so IS forms will no longer be generated to your case calendars. They will also not be included on future forms due reports. Cases with IS forms already on the calendar will have the IS forms removed.

Thank you all for your hard work and continued dedication to 6660!
